INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Mathematics, Science and Technology Community Charter School
Philadelphia, Pennsylvania

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Mathematics, Science and Technology Community Charter School (a nonprofit organization) as of and for the year ended June 30, 2012, which collectively comprise Mathematics, Science and Technology Community Charter School's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Mathematics, Science and Technology Community Charter School's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. The financial statements of Isaac Newton Foundation, Inc. were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Mathematics, Science and Technology Community Charter School as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 15, 2013, on our consideration of Mathematics, Science and Technology Community Charter School's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information as listed in the table of contents, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mathematics, Science and Technology Community Charter School's financial statements. The accompanying schedule of expenditures of federal awards, as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

The Board of Trustees of the Mathematics, Science and Technology Community Charter School (the "School") offers readers of the School's financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with the School's financial statements.

Financial Highlights

- Total general fund revenues for the fiscal year ended June 30, 2012 were \$14,895,605, representing an increase of \$156,817 from June 30, 2011.
- At the close of the current fiscal year, the School reported an ending general fund balance of \$15,920,078, representing an increase of \$1,116,766 from June 30, 2011.
- The School's cash balance as of June 30, 2012 was \$7,670,830, representing a cash increase of \$1,392,476 from June 30, 2011.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The financial statements include the Isaac Newton Foundation, Inc. ("INF") as a discretely presented component unit. The School's basic financial statements comprise four components: Management's Discussion and Analysis (this section), the basic financial statements, the notes to the financial statements, and the federal awards section.

Government- Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the School's assets and liabilities, with the difference between the two reported as net assets (deficit). Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The *statement of activities* presents information showing how the School's net assets (deficit) changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. expenditures accrued in one fiscal year but paid in subsequent years, and depreciation and amortization).

The government-wide financial statements report on the function of the School that is principally supported by subsidies from school districts whose constituents attend the School. The School's function is to provide an alternative educational opportunity for elementary and secondary school children.

In the statement of net assets and the statement of activities, the School is divided into two kinds of activities: (1) governmental activities, where most of the School's basic services are reported; and (2) business-type activities, where the School charges students a reduced fee for breakfast and lunch.

Overview of the Financial Statements (Continued)

Fund Financial Statements

A *fund* is a group of related accounts that are used to maintain control over resources that have been segregated for specific activities or purposes. The School, like governmental-type entities, utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The School has three fund types, governmental general fund, the proprietary fund and the fiduciary agency funds.

Most of the School's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Such information is useful in assessing the School's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending for program purposes at the end of the fiscal year.

When the School charges students for services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the School's enterprise fund (a component of proprietary funds) are the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Supplementary Information

The governmental fund budgetary comparison schedule is presented for purposes of additional analysis and is prepared using a non-GAAP basis for state reporting requirements.

Single Audit Requirements

The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2012**

Overview of the Financial Statements (Continued)

Government-Wide Financial Analysis

Management has adopted Governmental Accounting Standards Board ("GASB") Statement 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, which requires a comparative analysis of current and prior periods. This includes the School activities and does not include the discretely reported component unit.

	<u>2012</u>	<u>2011</u>
ASSETS		
Other assets	\$ 17,462,508	\$ 16,449,537
Capital assets, net	<u>637,926</u>	<u>807,007</u>

TOTAL NET ASSETS	<u>\$ 16,557,575</u>	<u>\$ 15,527,563</u>

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the School, assets exceeded liabilities by \$16,557,575 as of June 30, 2012, an increase of \$1,030,012 from June 30, 2011.

The School's revenues are predominately the School District of Philadelphia's funds based on the student enrollment. For the year ended June 30, 2012, the School's total revenues of \$15,298,029 exceeded expenditures of \$14,268,017 by \$1,030,012.

Governmental Fund

The focus of the School's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, *fund balance* may serve as a useful measure of a government's net resources available for spending for program purposes at the end of the fiscal year.

The School's governmental fund (the general fund) reported an ending fund balance of \$15,920,078 at June 30, 2012.

General Fund Budgetary Highlights

Over the course of the year, the School revised the annual operating budget several times. These budget amendments consisted of changes made within budgetary line items for changes in the school-based needs for programs, supplies and equipment. There were no formal budget amendments made that were required to be submitted to the State of Pennsylvania.

Capital Asset and Debt Administration

Capital Assets

As of June 30, 2012, the School's investment in capital assets for its governmental activities totaled \$602,914 (net of accumulated depreciation). This investment in capital assets includes leasehold improvements, vehicles, classroom and office furniture and computer equipment.

Major capital asset purchases during the year included the following:

- Capital expenditures of \$74,917 for equipment
- Capital expenditures of \$2,040 for furniture and fixtures

Additional information on the School's capital assets can be found in Note 5 of this report.

Economic Factors and Next Year's Budgets and Rates

The School's primary source of revenue, the per student subsidy provided by the School District of Philadelphia, will decrease by 7.72% for fiscal year 2012-2013, due to an decrease in the per pupil subsidy rate; however the decrease will be offset by the School reaching maximum enrollment of 1,250 students.

Future Events That Will Financially Impact the School

The School does not foresee any future events at this time that will financial impact the School.

Contacting the School's Financial Management

The financial report is designed to provide interested parties a general overview of the School's finances. Questions regarding any of the information provided in this report should be addressed to the Chief Executive Officer, Mathematics, Science and Technology Community Charter School, 1800 East Byberry Road, Philadelphia, PA 19116.

Component Unit

Isaac Newton Foundation, Inc. ("INF") is a component unit of the School and is discretely presented and reported in a separate column in the government-wide financial statements to emphasize that INF is legally separate from the School. Complete financial statements of INF can be obtained at 13000 Lincoln Drive West, Suite 302, Marlton, NJ 08053.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET ASSETS (DEFICIT)
JUNE 30, 2012**

TOTAL FUND BALANCE - GOVERNMENTAL FUND \$ 15,920,078

Total net assets reported for governmental activities
in the statement of net assets is different because:

Capital assets used in governmental activities are not
financial resources and therefore are not reported in
the government fund financial statements.

These assets consist of:

Leasehold improvements	154,314	
Equipment	1,820,151	
Furniture and fixtures	402,279	
Less: accumulated depreciation	<u>(1,773,830)</u>	<u>602,914</u>

NET ASSETS OF GOVERNMENTAL ACTIVITIES \$ 16,522,992

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE
OF GOVERNMENTAL FUNDS
YEAR ENDED JUNE 30, 2012**

	<u>General Fund</u>

Capital outlay	<u>76,957</u>
TOTAL EXPENDITURES	<u>13,778,839</u>
EXCESS OF REVENUES OVER EXPENDITURES	1,116,766
FUND BALANCE, BEGINNING OF YEAR	<u>14,803,312</u>
FUND BALANCE, END OF YEAR	<u>\$ 15,920,078</u>

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND
BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2012**

TOTAL NET CHANGE IN FUND BALANCE - GOVERNMENTAL FUNDS \$ 1,116,766

The amount reported for governmental activities in the statement of activities is different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense. The effect of capitalizing the current year's capital outlays is to increase net assets.

76,957

Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The effect of recording the current year's depreciation is to decrease net assets.

(223,924)

CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES \$ 969,799

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Background

Mathematics, Science and Technology Community Charter School (the "School") is organized as a nonprofit corporation in Pennsylvania to operate a charter school in accordance with Pennsylvania Act 22 of 1997 (the "Act"), and is operating under a charter school contract through 2013, which may be renewed for an additional term. As its mission, the School creates innovative pathways for students pursuing knowledge focused on Mathematics, Science, and Technology. The School is located in Philadelphia, Pennsylvania. During the 2011-2012 school year, the School served children grades K through 12.

Reporting Entity

The School has financial accountability and control over all activities related to the students' education. The School receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. The reporting entity of the School is based upon criteria set forth by Governmental Accounting Standards Board ("GASB") Statement 14, *The Financial Reporting Entity*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School. The School is not a component unit of another reporting entity. The decision to include a potential component unit in the School's reporting entity is based on several criteria, including legal standing, fiscal dependency, and financial accountability.

Component Unit

Isaac Newton Foundation ("INF") is a legally separate, non-profit corporation formed on June 1, 2001, under the laws of the Commonwealth of Pennsylvania. It is tax-exempt component unit of the School. INF was organized to acquire and construct the School's facilities. Although the School does not control the timing or amounts of receipts from INF, the majority of resources, and income thereon, which INF holds, are restricted to the activities of the School. The goal of INF is to provide classroom facilities to the School. Because these restricted resources held by INF can only be used by or for the benefit of the School, INF is considered a component unit of the School and is discretely presented in the School's financial statements.

Basis of Presentation

The financial statements of the School have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School's accounting policies are described below.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report on the School as a whole. The statement of activities demonstrates the degree to which the direct expenses of the School's function are offset by program revenues.

The fund financial statements (governmental fund balance sheet and statement of governmental fund revenues, expenditures and changes in fund balance) report on the School's general fund.

Business-type activities and enterprise fund types apply all applicable pronouncements of the Financial Accounting Standards Board ("FASB") issued on or before November 30, 1989 that are not in conflict with applicable GASB pronouncements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements:

The statement of net assets and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of the related cash flows. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider have been met.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as another financing source. Amounts paid to reduce long-term indebtedness are reported as a reduction of the related liability rather than as expenditures.

Fund Financial Statements:

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within 365 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Operating grants, capital grants, contributions and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable only when the School receives cash.

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Fund Financial Statements (Continued):

Under current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during the period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year the resources were expended rather than as fund assets. The proceeds of long-term debt are recorded as another financing source rather than a fund liability. However, debt service expenditures, as well as expenditures related to compensated absences and claims for judgments, are recorded only when payment is due.

The School reports the following major governmental fund:

General Fund – The General Fund is the operating fund of the School and accounts for all revenues and expenditures of the School, with the exception of the activities of the enterprise fund.

The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector.

The School reports the following proprietary fund:

Food Service Fund – Enterprise funds are required to be used to account for operations for which a fee is charged to external users for goods or services, and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

The School reports the following fiduciary funds:

Student Activities and Association of MaST Parents Funds – Trust and Agency Funds are used to account for assets held by the School in a trustee capacity or as an agent for individuals. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School does not maintain any Trust Funds but maintains Agency Funds for the activities of student clubs, classes and organizations and for parent organization groups.

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Method of Accounting

The School has adopted the provision of Statement No. 34 ("Statement 34") of the Governmental Accounting Standards Board "Basic Financial Statements — and Managements' Discussion and Analysis — for State and Local Governments." Statement 34 established standards for external financial reporting for all state and local governmental entities, which includes a statement of net assets, a statement of activities and changes in net assets. It requires the classification of net assets into three components - invested in capital assets, net of related debt; restricted; and unrestricted. These calculations are defined as follows:

- Invested in capital assets, net of related debt — This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as the unspent proceeds.
- Restricted net assets — This component of net assets consists of constraints, placed on net asset use through external constraints imposed by creditors such as through debt covenants, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net assets — This component of net assets consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Method of Accounting (Continued)

The governmental fund financial statements segregate portions of fund balance that are either not available or have been restricted for specific purposes. Fund balances are classified as nonspendable, restricted, committed, assigned or unassigned.

- Nonspendable — This classification includes amounts that cannot be spent either because they are in a nonspendable form such as inventories or prepaid expenses or they are legally or contractually required to be maintained intact.
- Restricted — This classification includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- Committed — This classification includes amounts that can be used only for the specific purposes determined by a resolution of the School's Board of Trustees. These committed amounts cannot be used for any other purpose unless the School's Board of Trustees removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- Assigned — This classification includes amounts that are intended to be used by the School for specific purposes, but do not meet the criteria to be classified as restricted or committed. It is the School's policy that the Board of Trustees is authorized to assign amounts to specific purposes.
- Unassigned — This classification includes all spendable amounts not included in other classifications.

When both restricted or unrestricted fund balance is available, it is the School's policy to use restricted resources first; then unrestricted resources as they are needed for the included program. When an expenditure is incurred for purposes for which amounts in any unrestricted fund balance classification could be used, it is the policy of the School to use restricted resources first, followed by committed and then assigned.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets and Budgetary Accounting

Budgets are adopted on a basis consistent with GAAP. An annual budget is adopted for the General Fund. The School is required to present the adopted and final budgeted revenues and expenditures for the general fund that were filed and accepted by the Labor, Education and Community Services Comptroller's office. Included in the budgetary filing are provisions for the revenues and expenditures of the Proprietary Food Service Fund. These provisions are included in revenues as local, state and federal sources and expenditures as non-instructional services. Accordingly the actual results are also included in the comparison. The General Fund budget appears on page 38.

The Budgetary Comparison Schedule should present both the original and the final appropriated budgets for the reporting period. The budgetary comparison is required supplementary information.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The School's cash is considered to be cash on hand and demand deposits. For the purpose of financial statement presentation, the School considers all highly liquid instruments with a maturity of three months or less to be considered cash equivalents.

Receivables

Receivables primarily consist of amounts due from the Pennsylvania Department of Education and the School District of Philadelphia for federal and state subsidy programs. Receivables are stated at the amount management expects to collect from outstanding balances. As of June 30, 2012, based on historical experience, no allowance for doubtful accounts has been recorded.

Prepaid Expenses

Prepaid expenses include payments to vendors for services applicable to future accounting periods, such as insurance premiums, retainage for professional services, in addition to rental payments to INF.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets, which include leasehold improvements, vehicles, classroom and office furniture and computer equipment, are reported in the government-wide financial statements. All capital assets are capitalized at cost and updated for additions and retirements during the year. The School maintains a threshold level of \$2,500 or more for capitalizing assets. The School does not possess any infrastructure. The infrastructure is owned by INF, which is shown discretely. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Capital assets of the School are depreciated using the straight-line method over the useful lives of the assets, which range from three (3) to forty (40) years.

Program Revenues

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the School and for each major function/program of the School's governmental activities. Direct expenses are those that are specifically associated with a program. Indirect expenses have been allocated to major functions in order to present a more accurate and complete picture of the cost of the School's services. Program revenues include (a) fees and charges paid by recipients of goods or services offered by the major programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including local educational agency assistance, unrestricted grants and contributions, are presented as general revenues.

Operating and Non-Operating Revenues of Proprietary Funds

Proprietary fund operating revenues, such as charges for services and grants and contributions, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies, reimbursements and investment earnings, result from non-exchange transactions or ancillary activities.

Advertising Costs

All costs associated with advertising and promotions are expenses in the year incurred.

Income Tax Status

The School is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Service Code.

The School files federal Exempt Organization Business Income Tax Returns (Form 990). With few exceptions, the School is no longer subject to U.S. federal income tax examinations by tax authorities for years before 2009.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 1 BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Uncertain Tax Positions

The School is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code, except on net income derived from unrelated business activities. At June 30, 2012, the School has no recorded tax liability for unrelated business activity, as it does not believe it is involved in any such activities. The School believes that it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are material to the financial statements.

Date of Management's Review

The School has evaluated material subsequent events through the date that these financial statements were available to be issued on January 15, 2013.

NOTE 2 CASH

Custodial credit risk is the risk that in the event of a bank failure, the School's deposits may not be returned to the School. The School monitors custodial credit risk by periodically reviewing the Federal Deposit Insurance Corporation's ("FDIC") limits and published credit ratings of its depository bank(s). Accounts are insured by the FDIC up to \$250,000 for interest-bearing accounts. Noninterest-bearing accounts are fully insured under the FDIC's temporary transaction guarantee program.

As of June 30, 2012, the custodial risk is as follows:

	<u>Primary Government</u>	<u>Component Unit</u>
Uninsured and uncollateralized	\$ -	\$ -
Collateralized	-	-
Uninsured and collateral held by the pledging bank's trust department not in the School's name	<u>6,504,008</u>	-
Total	<u>\$ 6,504,008</u>	<u>\$ -</u>

Reconciliation to the financial statements:

	<u>Primary Government</u>	<u>Component Unit</u>
Cash exposed to custodial risk	\$ 6,504,008	\$ -
Plus: Insured amount	1,470,862	582,840
Less: Outstanding checks	<u>(304,040)</u>	-
	<u>\$ 7,670,830</u>	<u>\$ 582,840</u>

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012**

NOTE 3 LOCAL EDUCATION AGENCY ASSISTANCE (REVENUE)

The School receives funding from the School District of Philadelphia on a monthly basis based on enrollment. The rate of funding per student is determined on an annual basis.

Charter schools are funded by the local public school district where each student resides, which is primarily the School District of Philadelphia. For non-special education students, the charter school receives for each student enrolled no less than the budgeted total expenditure per average daily membership of the prior school year as defined by the Act. For the year ended June 30, 2012, the rate for the School District of Philadelphia was \$8,773 per year per student plus additional funding for special education students at a rate of \$19,423 per student, and additional funding for transportation. The annual rate is paid monthly and is prorated if a student enters or leaves during the year. Total revenue from local sources was \$12,678,153 for the year ended June 30, 2012.

NOTE 4 RECEIVABLES

Receivables at June 30, 2012, consisted of subsidies from federal, state, local and private authorities. All receivables are considered collectible due to the stable condition of the state and private programs.

A summary of receivables follows:

<u>Receivables</u>	<u>Amount</u>
Federal	\$ 274,057
State	363,409
Local	160,682
Other	<u>3,731</u>
	<u>\$ 801,879</u>

Capital assets, net	<u>\$ 57,126</u>	<u>\$ (22,114)</u>	<u>\$ -</u>	<u>\$ 35,012</u>

Depreciation expense for business-type activities for the year ended June 30, 2012 was \$22,114.

NOTE 6 REFUNDABLE ADVANCES

The refundable advances primarily represents grant monies received in advance and will be recognized as revenue as conditions of the agreement are met.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 7 RETIREMENT PLAN

The School contributes to the Public School Employees' Retirement System (the System), a governmental cost-sharing multiple-employer defined benefit pension plan administered by the System, which provides retirement and disability benefits, legislatively mandated ad hoc cost-of-living adjustments, and health care insurance premium assistance to qualifying annuitants.

The Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 PA.C.S. 8101-8535) assigns the authority to establish and amend benefit provisions to the System. The System issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, P.O. Box 125, Harrisburg, Pennsylvania 17108-0125. The publication is also available on the System's website at www.psers.state.pa.us/publications/cafr/index.htm.

The rate of contribution for employees ranges from 5.25% - 10.30% depending upon classification and elections of employees. For the year ended June 30, 2012, the School's contribution is 8.65% of covered payroll. In accordance with Act 29 of 1994, the Commonwealth of Pennsylvania will pay school entities for contributions made to the System based on the formula in Act 29 of 1994, but not less than one-half of the school entities contributions. The School's contributions to the Plan for the years ended June 30, 2012, June 30, 2011 and June 30, 2010 totaled approximately \$545,000, \$379,000, and \$315,000, respectively, which equals 100% of the contractually required contribution as set by State statutes.

Payroll expense for employees covered by the System for the year ended June 30, 2012 was approximately \$6,600,000.

NOTE 8 FUND BALANCES AND BOARD DESIGNATIONS

The School has adopted GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which defines how fund balances of the governmental funds are presented in the financial statements.

The details of the fund balances are included in the Governmental Fund Balance Sheet. As discussed in Note 1, restricted funds are used first as appropriate. Committed and Assigned funds are reduced to the extent that the commitment or assignment has been changed by the Board of Trustees.

The General Fund has Unassigned Fund Balance of \$366,190 as of June 30, 2012. Prepaid expenses, the balance due from the proprietary fund and the balance due from INF, as discussed in Note 11, are considered Nonspendable Funds in the amount of \$9,141,099.

The General Fund has Committed Funds consisting of the Board Designations of \$6,412,789.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2012**

NOTE 8 FUND BALANCES AND BOARD DESIGNATIONS (CONTINUED)

A board designation of net assets is used to indicate that a portion of the total net assets is not appropriable for expenditures because some underlying assets are not available financial resources. As of June 30, 2012, the Board of Trustees has established net asset designations in the amount of \$6,412,789 as shown in the statement of net assets.

The following amounts have been designated by the Board of Trustees as follows:

<u>Designations</u>	<u>Amount</u>
Capital improvements fund	\$ 500,000
Debt service	2,185,150
Equipment and capital assets	1,000,000
Pension fund	1,727,639
Technology	1,000,000
	<u>\$ 6,412,789</u>

NOTE 9 GRANT CONTINGENCIES

Grants received are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the School expects such amounts, if any, to be immaterial.

NOTE 10 LITIGATION

The School is, from time to time, involved in claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, at this time, the ultimate resolution of these matters will not have an adverse effect on the financial position of the School.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 11 RELATED PARTY TRANSACTIONS

The School leases its facilities from INF under a long-term operating lease ending January 1, 2040. The School has advanced funds to INF, which has been recorded as prepaid rent. It is anticipated that these funds will be charged to operations at the rate of \$25,000 per month through March 2013 and then at a rate of \$45,000 per month from April 2013 until all prepaid rent has been charged to operations. Rent under the lease for the year ended June 30, 2012, was \$1,986,500, which includes \$300,000 of amortized prepaid rent.

The following is a schedule of prepaid rent at June 30, 2012:

	<u>Amount</u>
Prepaid rent	\$ 7,050,157
Less: current portion	<u>360,000</u>
	<u>\$ 6,690,157</u>

Future minimum rentals under this lease are as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2013	\$ 1,986,500
2014	1,986,500
2015	1,986,500
2016	1,986,500
2017	1,986,500
2018-2022	9,932,500
2023-2027	9,932,500
2028-2032	9,932,500
2033-2037	9,932,500
2038-2040	<u>4,966,251</u>
	<u>\$ 54,628,751</u>

The School and INF make and receive advances in the normal course of operations, which are non-interest bearing. The amount due to the School, as of June 30, 2012, was \$1,642,509.

NOTE 12 CONCENTRATIONS

Approximately 79% of the School's revenue results from funds received from the School District of Philadelphia based on the student enrollment.

NOTE 13 RISK MANAGEMENT

The School is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School carries commercial insurance for such risks. There has been no significant reduction in insurance coverage from the previous year in any of the School's policies.

Summary of Significant Accounting Policies

Nature of Organization and Business Activities

INF is a non-profit corporation formed on June 1, 2001, under the laws of the Commonwealth of Pennsylvania, to support the School.

Basis of Accounting

The financial statements of INF have been prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred.

Basis of Presentation

The financial statement presentation follows the recommendation of the Not-for-Profit Entities Topic of the Financial Accounting Standards Board's Accounting Standards Codification ("FASB ASC"). Under the Not-for-Profit Topic of FASB ASC, INF is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. As of June 30, 2012, INF's net assets were unrestricted and temporarily restricted.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purpose of financial statement presentation, INF considers all highly liquid instruments with a maturity of three months or less to be considered cash equivalents.

Receivables

Management considers receivables to be fully collectible; accordingly no allowance for doubtful accounts is required. If accounts become uncollectible they will be charged to operations when that determination is made.

Capital Assets

Capital assets are stated at cost less accumulated depreciation. Expenditures for additions and betterments are capitalized and maintenance and repairs are charged to current operations as incurred. The cost of assets retired or otherwise disposed of and the related accumulated depreciation are removed from the accounts and the gain or loss on such dispositions is included in current operations. Depreciation is provided using the straight-line method over the estimated useful life of the respective assets as follows.

Building	40 years
Improvements	15 years
Furniture and fixtures	7 years
Computers and equipment	5 years

Summary of Significant Accounting Policies (Continued)

Bond Settlement Costs

Settlement costs incurred by the Foundation in association with the acquisition of revenue bonds, are amortized using the straight line method over the terms of the bonds payable. Amortization of bond settlement costs for the year ended June 30, 2012, was \$12,336. Future amortizations of bond settlement costs amount to \$12,336 annually for 2013 through 2034 and \$11,735 in 2035.

Original Issue Discount

The original issue discount relating to the revenue bond issuance, is amortized as interest over the term of the bonds. Amortization of original issue discount included in interest expense for the year ended June 30, 2012, was \$15,221. Future amortizations of original issue discount are as follows, and are included in interest expense:

<u>Year Ending June 30,</u>	<u>Amount</u>
2013	\$ 15,500
2014	15,792
2015	16,071
2016	16,332
2017	16,656
Thereafter	<u>222,461</u>
	<u>\$ 302,812</u>

Escrow Deposits

INF maintains various escrow deposit accounts required pursuant to the bond settlement agreement. All escrow deposits are considered temporarily restricted. The escrow accounts serve various purposes as outlined below:

Cost of Issuance Fund

The Cost of Issuance Fund Escrow was funded with \$15,541,677 from proceeds of bond issuance, along with a contribution from the School in the amount of \$1,776,000. The funds were then disbursed as needed to pay the costs of issuance of the bonds, repay the then existing mortgage and bonds payable, and to fund the Project Fund and the Debt Service Reserve Fund. This fund was setup only to facilitate distribution of the proceeds of bond issuance and has no other intended uses and has no balance as of June 30, 2012.

MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012

NOTE 14 COMPONENT UNIT (CONTINUED)

Project Fund

The Project Fund Escrow was funded with \$7,978,318 from the Cost of Issuance Fund, and is used to pay costs directly associated with the construction and renovation project. This also includes fees and expenses of the Trustee and other applicable or necessary costs prior to completion of the project. No additional funds are required to be deposited in this escrow. Subsequent to final reconciliation of construction costs associated with the project, any shortfall will be required to be funded by the Foundation, and any surplus will be transferred first to the Debt Service Reserve Fund, and second to the Debt Service Fund as a credit against future deposits.

Revenue Fund

The Revenue Fund Escrow was set up to directly receive the lease payments each month from the School. The receipts are first applied to the Debt Service Fund, and then to the Repair and Replacement Fund for the requirements listed under those fund descriptions.

Debt Service Reserve Fund

The Debt Service Reserve Fund Escrow was funded with \$1,171,500 from the Cost of Issuance Fund, and is used only in the event that the monies in the Debt Service Fund are insufficient to make the necessary principal and interest bond payments. All interest income earned in this escrow is transferred to the Debt Service Fund and credited to interest owed by the borrower.

Repair and Replacement Fund

The Repair and Replacement Fund Escrow is funded monthly by the Revenue Fund in the amount of \$20,833. The funds in this escrow are to be used only in association with costs of improvements to the School facility, repairs or replacement parts of the School facility, and to purchase equipment needed for the School.

Rebate Fund

The Rebate Fund Escrow has been established to reimburse the US Treasury to the extent any excessive investment income is generated from the proceeds of tax free bonds. There was no activity in this account during the year ended June 30, 2012.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012**

NOTE 14 COMPONENT UNIT (CONTINUED)

Escrow Deposits (Continued)

Debt Service Fund

The Debt Service Fund Escrow is used solely for the payment of the principal and premium, if any, and interest on the bonds as due. It was set up to directly receive loan payments each month from the borrower, equal to the basic rentals under the lease agreement, and for payment of due interest and principal payments on the bonds. The base monthly rental for the year ended June 30, 2012 fluctuated between \$94,526 and \$91,976. Also, retained in this fund is the interest or other income received on investment of moneys in the fund. Any additional funds needed will first be drawn from the Debt Service Reserve Fund and paid in the order of maturity, interest due first including interest on overdue principal, and then principal. Amounts remaining in the fund after all requirements are met will be paid to the borrower upon expiration of the agreement.

A summary of the principal escrow accounts held by the INF, and classified as temporarily restricted net assets, as of June 30, 2012 is as follows:

	<u>Amount</u>
Cost of Issuance Fund	\$ -
Project Fund	72,294
Revenue Fund	-
Debt Service Reserve Fund	1,188,131
Repair and Replacement Fund	583,357
Rebate Fund	-
Debt Service Fund	<u>637,742</u>
	<u><u>\$ 2,481,524</u></u>

The investments recorded as escrow deposits are presented in the financial statements at fair value using level 1 fair value measures (quoted prices in active markets). At June 30, 2012, these investments consisted of the following:

	<u>Amount</u>
Mutual Funds	\$ 1,188,131
Cash Equivalents:	
Money Market Funds	<u>1,293,393</u>
	<u><u>\$ 2,481,524</u></u>

Investment return on these investments consisted of interest in the amount of \$40,100, for the year ended June 30, 2012.

NOTE 14 COMPONENT UNIT (CONTINUED)

Capital Assets, Net

Capital asset activity of INF for the year ended June 30, 2012, was as follows:

	Balance July 1, 2011	Additions	Deletions	Balance June 30, 2012
Building and improvements	\$ 18,932,503	\$ 6,299,487	\$ -	\$ 25,231,990
Furniture and fixtures	-	699,084	-	699,084
Computer and technology equipment	-	1,125,614	-	1,125,614
Construction in progress	<u>7,466,789</u>	<u>-</u>	<u>(7,466,789)</u>	<u>-</u>
	26,399,292	8,124,185	(7,466,789)	27,056,688
Less: Accumulated depreciation	<u>(3,110,063)</u>	<u>(979,040)</u>	<u>-</u>	<u>(4,089,103)</u>
	<u>\$ 23,289,229</u>	<u>\$ 7,145,145</u>	<u>\$ (7,466,789)</u>	<u>\$ 22,967,585</u>

Depreciation expense for the year ended June 30, 2012, was \$979,040. Construction in progress represents ongoing additions to the building which have not been placed in service as of June 30, 2011, and were not being depreciated. Included in disposals and additions are the amounts in construction in progress as of June 30, 2011, which were placed in service during the year ended June 30, 2012. All building and improvements are pledged as collateral for the bonds payable.

Deferred Revenue

INF entered into a lease agreement with the School, as discussed in Note 11. During construction periods, which have occurred at various times since 2001, the School has advanced the Foundation monies to help fund the construction and expansion projects. Most recently, during the year ended June 30, 2010, the School advanced the Foundation \$2,700,000 in advanced rent for the Library/Media Center. The construction was substantially completed as of September 2011. The advanced rent will be amortized at a rate of \$25,000 per month through March 2013 and then at a rate of \$45,000 per month from April 2013 until all advanced rent has been amortized. Amortization of deferred revenues for the year ended June 30, 2012, was \$300,000, and is included in rental income. The balance in deferred revenue was \$7,050,157 at June 30, 2012.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2012**

NOTE 14 COMPONENT UNIT (CONTINUED)

Deferred Revenue (Continued)

Future amortization of deferred revenue is as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>
2013	\$ 360,000
2014	540,000
2015	540,000
2016	540,000
2017	540,000
Thereafter	<u>4,530,157</u>
	<u>\$ 7,050,157</u>

Bonds Payable

In February 2010, the Foundation issued Series 2010 tax-exempt revenue bonds in the amount of \$15,880,000 to (a) finance the construction of a 18,000 square foot, 3-story addition to the existing educational facility located at 1800 East Byberry Road, Philadelphia, PA (the "Property"), to be used as a library and technology resource center; (b) renovate 7,500 square feet at the Property; (c) refinance its then existing mortgage and bonds payable; (d) payoff the termination fees for interest rate swap agreements related to said mortgage and bonds payable; (e) fund the Debt Service Reserve Fund; and (f) to pay the cost of issuance of the bonds.

Interest is paid to bondholders on February 1 and August 1 of each year, commencing August 1, 2010. The interest rates on the bonds are fixed at 5% and 6%. The bonds mature in the amounts of \$3,830,000 and \$12,050,000, on August 1, 2020 and 2035, respectively, with an option to redeem a portion of the bonds each August 1. The bonds are collateralized by the Property, and assignment of all leases and income on the Property. As of June 30, 2012, the amount outstanding was \$15,280,000. During the year ended June 30, 2012 \$280,000 of the bonds were redeemed.

There are certain covenants that exist with these bonds payable. Such covenants include reporting requirements and financial covenants relating to unrestricted cash balances and debt service coverage. Management is not aware of any violations of the covenants.

**MATHEMATICS, SCIENCE AND TECHNOLOGY COMMUNITY CHARTER SCHOOL
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2012**

NOTE 1 GENERAL INFORMATION

The accompanying Schedule of Expenditures of Federal Awards presents the activities of the federal financial assistance programs of Mathematics, Science and Technology Community Charter School (the "School"). Federal awards received directly from federal agencies, as well as financial assistance passed through other governments agencies or non-profit organizations, are included in the schedule.

NOTE 2 BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the School and is presented on the accrual basis of accounting, which is described in Note 1 to the School's financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and follows the OMB Circular A-122 *Cost Principles for Non-Profit Organizations*. Therefore, some amounts in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

NOTE 3 RELATIONSHIP TO FINANCIAL STATEMENTS

The Schedule of Expenditures of Federal Awards presents only a selected portion of the activities of the School. It is not intended to, and does not, present either the balance sheet, revenue, expenditures, and changes in fund balances of governmental funds. The financial activity for the aforementioned awards is reported in the School's statement of revenues and expenditures, and changes in fund balances of governmental funds.

**Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

To the Board of Trustees
Mathematics, Science and Technology Community Charter School
Philadelphia, Pennsylvania

We have audited the accompanying basic financial statements of the governmental activities, business-type activities, the discretely presented component unit, each major fund and the aggregate remaining fund information of Mathematics, Science and Technology Community Charter School as of and for the year ended June 30, 2012, which collectively comprise the School's basic financial statements and have issued our report thereon dated January 15, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of Isaac Newton Foundation, Inc. were not audited in accordance with *Government Auditing Standards* and accordingly, this report does not include reporting on internal control over financial reporting or instances or reportable noncompliance associated with Isaac Newton Foundation, Inc.

Internal Control Over Financial Reporting

Management of Mathematics, Science and Technology Community Charter School is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Mathematics, Science and Technology Community Charter School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mathematics, Science and Technology Community Charter School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined previously.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mathematics, Science and Technology Community Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Trustees, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Canter Nousek Beaver & Peltz, PC

Certified Public Accountants

Newtown, Pennsylvania
January 15, 2013

**Independent Auditors' Report on Compliance
with Requirements That Could Have a Direct and Material Effect
on Each Major Program and Internal Control Over
Compliance in Accordance with OMB Circular A-133**

To the Board of Trustees
Mathematics, Science and Technology Community Charter School
Philadelphia, Pennsylvania

Compliance

We have audited Mathematics, Science and Technology Community Charter School's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Mathematics, Science and Technology Community Charter School's major federal programs for the year ended June 30, 2012. Mathematics, Science and Technology Community Charter School's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Mathematics, Science and Technology Community Charter School's management. Our responsibility is to express an opinion on Mathematics, Science and Technology Community Charter School's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mathematics, Science and Technology Community Charter School's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Mathematics, Science and Technology Community Charter School's compliance with those requirements.

In our opinion, Mathematics, Science and Technology Community Charter School, complied, in all material respects, with the compliance requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2012.

Internal Control Over Compliance

Management of Mathematics, Science and Technology Community Charter School is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Mathematics, Science and Technology Community Charter School's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Mathematics, Science and Technology Community Charter School's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the Board of Trustees, audit committee, management, others within the entity and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
