Build the Future Campaign

Dear MaST Parents, Guardians, and Friends,

The climate within the economy is ever-changing. As an innovative school, we are always developing forward-thinking initiatives to provide high quality, cutting edge experiences for our students. We are looking to create partnerships and opportunities to help our students excel and grow into well-rounded leaders. Our goal is to fund these exciting experiences for our students through our “Build the Future” campaign.

Why Support MaST Schools?

- MaST Schools Development funds are a big help and a key to continuing to grow our school programming and materials across schools.
- These funds can be spread across various departments including athletics, academic programs, arts, music, technology, and clubs.
- All students benefit from the areas where we are applying these funds. Students will have the opportunity to use the equipment or materials purchased throughout their career at MaST.
- Fundraising and past donations have helped MaST Schools tremendously in the effort to create innovative spaces over the past few years.

Science

Donation Level “S”: \$50
